<p>Courses:</p>	<p>The Masters courses are available on the website at the following link: http://www.novasbe.unl.pt/en/courses/courses</p> <p>This link are only for general information. Updated information will be sent by the International Office.</p> <p>NOTE: At Nova we have a limited number of places in each course. In this way the enrolment is done within a Bidding system. The bidding system for enrollment is a system that several universities across Europe are using in order to allow students to enroll in the courses they want due to the limited places. Each student is given a certain number of points and distributes the points by the courses. In this way, students who really want to take a certain course will much probably give more points to that one than to another they want less. It works like a bid. In the end, the students who offered the highest bids will get a place in the course.</p> <p>This system does not guarantee, however, that all students are placed according to their first preferences: in this way, one is advised to have alternative choices approved by the home university. We have a period of changes where students may change their options, pending availability of places. Enrollment is done online on a Bidding platform to which the student will have access with a username and password.</p>
<p>Workload and Assessments:</p>	<p>Workload</p> <p>The Nova Masters Programs are full-time programs offered from Monday to Saturday during working hours. Exchange students make their choice from a list of available courses for exchange students.</p> <p>Type of courses offered:</p> <ul style="list-style-type: none">• Full-courses take 12 weeks of class work and are worth 7 ECTS;• Short-courses take 6 weeks of class work and account for 3,5 ECTS each). The courses can be lectured once a week with the duration of three hours in a row OR be lectured in 2 sessions of 1,5 hours per week. Besides these classes, faculty also provides open office time for individual consultations. <p>The limit of ECTS one exchange student is allowed to enrol at is 32.</p> <p>Assessment Methods</p> <p>Students' course evaluation is conducted on an individual basis, and final grades are on a scale of 0 – 20. Academic courses approval requires that the final grade is equal to or more than 10.</p> <p>Each course's evaluation can be based on the student's participation in class,</p>

coursework, classwork, tests, examinations and other evaluation, according to rules defined by the Course Instructor at the beginning of the academic period, in the course syllabus.

The weight of all individual in-class written work cannot be less than 50%. The weight of the exam's grade cannot be less than 30% and not more than 70%. In each semester, there is only **one** examination period per course. For Full courses, the examinations are scheduled at the end of the semester during which they are offered; for short courses the examinations will be offered at the end of each half (please see the calendar section). **It is not possible to enroll in courses that have exams overlapping.**

Grading Scale

We use a 0-20 scale to grade students, following the Portuguese convention. The top grade, 20 points, distinguishes an outstanding performance and is very rarely awarded. The bottom grade, 0 points, is awarded only to extremely disastrous performances. Note also that the fail range is from 0 to 9; hence, 10 points is the threshold to pass. You can compare our scale with the ECTS grading scale in Table 1.

Table 1: Grading scales at Nova SBE

ECTS scale	% of successful students normally achieving the grade	Definition
A	10	EXCELLENT – outstanding performance with only minor errors
B	25	VERY GOOD – above the average standard but with some errors
C	30	GOOD – generally sound work with a number of notable errors
D	25	SATISFACTORY – fair but with significant shortcomings
E	10	SUFFICIENT – performance meets the minimum criteria
F	-	FAIL – some more work or considerable work required before the credit can be awarded
